Jewelry Fine Round Nose Micro Pliers, [XTL-5600] Xuron Sharp Flush Cutter Pliers -

Wire/Soft Flex

Instructions

This finished necklace measures 56 inches.

1. Begin by separating the channel chain. Open the jump rings and remove them from the links. You will not be using these jump rings for this project.
2. Using your flush cutters cut off two inches of silver chain. To one end attach one channel link using one jump ring.
3. Cut off two more inches of chain. Attach this chain to the other side of the channel link you just added using one jump ring.
4. You will continue in this manner until you have added 21 channel charms.
5. When you come to the final link, attach it to the beginning of the chain to complete the necklace.
6. All done!
