Project uses 1 piece

Recommended Tools:

[XTL-5511] Beadsmith Jeweller's Micro Pliers Chain Nose Flat Nose, [XTL-5514] Beadsmith Jewelry Fine Round Nose Micro Pliers

Instructions

You will also need a scrap of wire or toothpick for this project.

1. Begin by using a scrap of wire or tooth pick to add a dab of glue to the rivoli settings and add the rivolis. Set aside to dry. You will have 6 links and 1 pendant.
2. Move to one end of the chain. Open one jump ring and close it around one rivoli link and the last link in the chain.
3. To that rivoli link, attach another rivoli link. Repeat two more times.
4. Add one rivoli pendant using a jump ring.

5. Move to the other side of the chain and add one rivoli link. To that link add one more.
6. Next, you will attach the last link you added to the third link on the other chain forming a "Y" shape.
7. All done!
