### Instructions:

1. Open a link at one end of the chain, using the same method one would use to open a jump ring.
2. Thread this link through the loop at the top of the black Arte Metal heart pendant, and also through the link at the opposite end of the chain. Close the link once more.
3. Using a toothpick or a piece of wire, spread a tiny amount of E6000 on the back of a Light Siam rhinestone and carefully press it onto the the black Arte Metal heart pendant, right in the center of the flower. Allow to dry for at least twenty four hours before wearing.
