SKU: FCL-4642
Project uses 1 piece

Brass Oxide Finish Pewter Open Jump Rings 7.7mm 16 Gauge (25)

SKU: FJR-7001
Project uses 1 piece

Vintaj Natural Brass 3.5mm Round Rolo Chain - Bulk By The Foot

SKU: CHA-7190
Project uses 2 feet

Specialized Tools

Beadsmith Jeweller's Micro Pliers Chain Nose Flat Nose

SKU: XTL-5511

Instructions:

1. Using a pair of chain nose pliers (XTL-5511) gently pry open the prongs on the antiqued brass bezel, just enough to accommodate the green magnesite cabochon.
2. Place the cabochon into the bezel setting and close the prongs around it. To get a tight fit, you can gently roll the prongs down on a hard, scratch-proof surface, such as a bench block (XTL-6091).
3. Open an antiqued brass jump ring and thread it through the loop at the top of the pendant. Close the jump ring once more.
4. Cut your chain to the desired length, (our necklace is sixteen and a half inches long, but you can make it longer or shorter if you'd like) and thread it through the jump ring at the top of the pendant.
5. Open one half of the figure eight shaped clasp piece the same way you would open a jump ring. Thread this through the last link at one end of the chain. Close the figure eight half of the clasp once more.
6. Open the loop on the hook half of the clasp. Thread this loop through the link at the opposite end of the chain. Close the loop once more, and you're done!
