

Adela Layered Necklace

Project N2133

Kat Silvia

This elegant triple chain necklace may feature delicate chain but this is definitely a statement piece of jewelry with gemstone chain, brushed chevron bar and gemstone focal pendant.

Instructions

This is a triple tier necklace with varying lengths. Please note that these chains are sold by the inch so you can adjust the lengths to suit you. The clasp adds about 2 inches of overall length.

1. The top tier necklace will be 16 inches in length. Begin by cutting two 7 inch lengths of the saturn chain. Open one jump ring and attach it to one side of the chevron focal. Attach the other piece of chain to the other side of the chevron. Set this aside.
2. The second tier necklace will be 19 inches in length. Cut two 7 inch lengths of the large oval chain. Open one jump ring and attach it to one side of the 5 inch length of the gemstone chain. Attach the other piece of chain to the other side of the gemstone chain. Set this aside.
3. The third tier of this necklace will be 30 inches in length. Open one jump ring and attach it to the gemstone pendant. Close the jump ring. Slide the small cable link chain through the jump ring. The pendant will swing freely on the chain.
4. Now to attach them to the strand reducer. Make sure the filigree side is up. (See photo for reference)
5. Using jump rings, attach the saturn chain to the first loop of the strand reducer on both sides. Attach the large oval chain to the center loop of the strand reducer on both sides. Attach the small cable link chain to the last loop of the strand reducer on both sides.
6. Open another jump ring and attach it to the top loop of one strand reducer. Close the jump ring.
7. Open another jump ring and attach it to the top loop of one strand reducer and to one lobster clasp. Close the jump ring and you're all done!
