Instructions

These instructions will give you an 18 inch necklace. To modify the length simply adjust the number of beads strung. Please note that for a longer necklace you may need to purchase additional beads. You will also need a scrap of wire or toothpick to complete this project.

1. Begin by making the five tassels. To see this technique, please watch our video: How to Make a Tassel with Round Leather Cord. From what you learned in the video you will use a variation of the technique. Cut your white leather cord into two inch pieces. For each tassel you will need 6 pieces. Once all of your cord is cut, gather 6 pieces and add glue to the end cap. Then place the cord ends into the end cap. Repeat for all five tassels.
2. Cut off 24 Inches of beading wire with your flush cutters. Place a bead stopper about 4 inches from one end.
3. String on your beads in this order: one O bead, one blue 6mm bead, one O bead, one pink 6mm bead, one O bead, and one gold 8mm bead. Repeat this 6 more times.
4. Then string: one O bead, one blue 6mm bead, one O bead, one bead cap tassel, one O bead, one pink 6mm bead, one O bead, and one gold 8mm bead. Repeat this 4 more times.
5. Next string: one O bead, one blue 6mm bead, one O bead, one pink 6mm bead, one O bead, and one gold 8mm bead. Repeat this 6 more times.
6. Finally string: one O bead, one blue 6mm bead, one O bead, one pink 6mm bead, and one O bead.
7. String on one crimp tube, thread the wire through the closed jump ring and back down through the crimp tube. Pull snug. Crimp the crimp tube. Thread the wire down through a few adjacent beads, then trim the wire. Add a crimp cover to the crimp bead.
8. Move to the other side and remove the bead stopper. String on one crimp tube, thread the wire through the loop of the lobster clasp and back down through the crimp tube. Pull snug. Crimp the crimp tube. Thread the wire down through a few adjacent beads, then trim the wire. Add a crimp cover to the crimp bead.
