## Instructions

This necklace measures approximately 32 inches. To modify the length, simply adjust the length of chain on both sides respectively. You will also need a

scrap of wire or thread for this necklace.

1. Please watch our video: How to Make Your Own Adjustable Slider Necklace or Bracelet Clasp. In this video you will see how to slide the chain through the slider bead.
2. Once both ends are through, open jump ring and attach one ball drop to one end of the chain. Close the jump ring. Repeat on the other side.

You can substitute tiny charms for the balls at the end of the chains for a nice personalized look.
