Instructions

This necklace measures approximately 20 inches. To modify the length, you will need to purchase a different length of finished chain.

1. Please watch our video: [How to Wire Wrap a Druzy Bead](#). From what you learned in the video, cut a length of wire about 15-20 inches.
2. Begin the wire wrap as seen in the video, for this pendant I recommend wrapping around the bead three times. Finish with the wrapped wire loop at the top. Trim any excess wire.
3. Finally open a jump ring and attach it to the loop of the Druzy bead and to the center of the chain. Close the jump ring and you're all done!
