### Instructions

This necklace measures approximately 18 inches. To modify the length, simply adjust the length of chain on both sides respectively.

1. Begin by opening one jump ring and attaching it to two resin links. Close the jump ring. Open another jump ring and attach it to the same two resin links. Close the jump rings. Continue linking all six resin links in the same manner.
2. Cut the chain into two 6 inch lengths. Open one jump ring and attach it to one of the end links and to one length of chain. Close the jump ring. Move to the end of this chain and attach one more jump ring.
3. Repeat on the other side with the second length of chain, and to the end attach the last jump ring and the lobster clasp. All done!
