Project uses 24 inches

Specialized Tools

Standard Size Beading Crimping Pliers (For 2x2mm & 2x1mm Crimp Beads)

SKU: XTL-5200

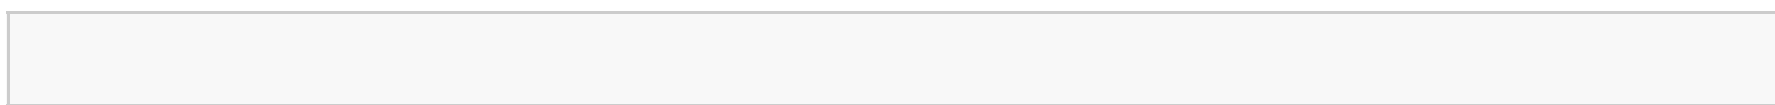

Xuron Sharp Flush Cutter Pliers - Wire/Soft Flex

SKU: XTL-5600

Instructions:

1. Begin this project by watching the video: How to Use Katiedids Channel-Set Components with Crystal Clay.
2. Based upon what you learned in the video, create your focal piece using your Katiedids component, turquoise Crystal Clay, 24 inches of beading wire, 14 size pp32 chatons in aqua, and 14 size pp24 chatons in turquoise.
3. Also, take a small ball of mixed turquoise Crystal Clay, smaller than the size of an eraser, and place it on the top of your clasp, in the center. Take 1 size pp32 chaton in aqua and press this down into your clay ball on the clasp. Let your focal and clasp dry overnight.
4. String onto one side of your necklace one 3mm silver plated round bead and one 6mm Czech Glass bicone in light turquoise. Repeat this sequence 4 more times.
5. Next, string one 3mm silver plated round bead and one 4mm Czech Glass bicone in light turquoise. Repeat this sequence 6 more times.
6. Next, string 30 4mm Czech Glass bicones in turquoise and one crimp tube. Take your beading wire and string it through the loop on one side of your clasp.
7. Bring the beading wire back around and down through your crimp tube and several beads next to it. Pull snug and crimp your crimp tube. Cut off excess beading wire with flush cutters.
8. Repeat the last 3 steps on the other side of your necklace.
9. Enjoy

Variations

Choose from a variety of colors of Crystal Clay for this project. Don't forget to coordinate your SWAROVSKI ELEMENTS chatons to the clay color.

When substituting in items, pay attention to sizes and styles to make sure all your pieces will fit together.
