## Instructions

The finished chain in this project measures 18". For a necklace that is longer or shorter, simply adjust the chain length.

1. Open the clasp on your 18" finished gold plated chain and slide on one gold plated jump ring.
2. Using your chain nose pliers, open another jump ring and attach it onto that first jump ring. Before closing, also slide on the loop from your Beadelle pave crescent moon charm and close.
3. Close your necklace back up and you're done!
