Instructions

1. Begin by cutting your sterling silver beading chain to your desired necklace length. A 16" or 18" length would look very nice for this design.
2. Please watch the video: How to Use Beading Chain and Beading Chain End Caps.
3. Following what you learned in the video, attach one sterling silver cord end/crimp bead with loop to the end of your beading chain.
4. Slide on your Beadelle crystal pave 10mm heart bead.
5. Attach another cord end/crimp bead to the other end of the beading chain.
6. Open the small loop at the base of your sterling silver spring ring clasp and attach it to one of the loops on your necklace end. Close the loop back up.
7. On the other side of the necklace, open and attach a sterling silver 5mm jump ring. Close the jump ring.

8. All done!
