Recommended Tools:

[XTL-5502] BeadSmith Rotating Leather Hole Punch Tool - Creates 6 Hole Sizes!, [XTL-0293]

TierraCast Eyelet Setting Kit, Rectangle Maple Wood Block 3.75x5.5 Inches & Eyelet Setting

Tool, 1 Kit, [XTL-2152] BeadSmith Jeweler's Chasing Hammer - 1 Inch Head - Metal Smithing

Instructions

1. Cut one 3-inch piece of faux-leather cord.
2. Set the BeadSmith leather hole punch tool to its 2mm setting. Fold the piece of cord in half, and punch a hole through both sides about 1/4-inch from the edge.
3. Slide the piece of cord through the TierraCast connector ring and realign the edges. Slide one washer bead onto your eyelet, and place the eyelet through both of the holes punched in the piece of cord.
4. Place the eyelet face-down into the notch of the anvil. Use the eyelet setting tool and hammer to fasten the eyelet.
5. Open the ball chain necklace and slide it through the bail. Your necklace is all done!
