### Instructions:

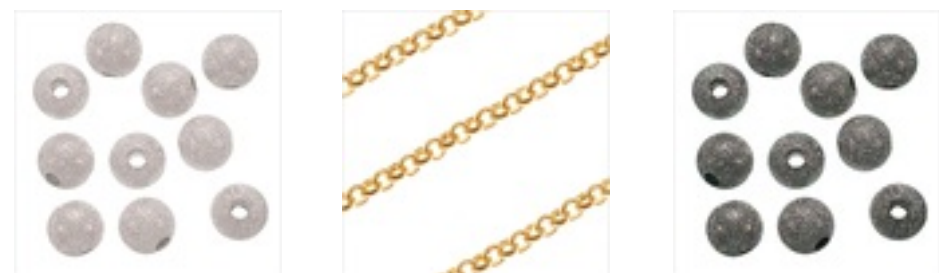

You will also need a ruler for this project.

1. Measure an 18" length of chain and use your flush cutters to cut your chain.
2. Separate the two parts of your barrel clasp.
3. Open the end loop of one part of your barrel clasp, just as you would open a jump ring, and link it to the end chain link of your cut piece of chain. Close the end loop back up.
4. Going from the end of the chain that does not have the clasp on it, place 11 gold plated stardust sparkle 10mm round beads. Attach the other side of your barrel clasp to the last link of chain on this end.
5. Have fun wearing this pretty necklace.

### Variations

Vary the metal colors used in this project to create different versions of this easy design.
