

Flower Power Necklace in Daybreak

Project N724

Designer: Julie Bean

Vibrant and bold, the Flower Power necklace uses strong graphic shapes and bright colors to bring attention to its riveted design. The combination of teal and pink patinas on the flower stampings reminds me of a crisp spring morning.

Instructions

Please note that you will also need a paint brush and pen for this project.

1. Paint your 19mm Vintaj petal stamping using Vintaj patina in pink quartz. Paint your 34mm Vintaj petal stamping using Vintaj patina in verdigris teal. Let both of these stampings dry and then paint a second coat of patina on each. Let dry.
2. Please watch the video: How to Use Beadsmith's EZ-Rivet Tool.
3. Based upon what you learned in the video, rivet your two petal stampings to a Vintaj Artisan Copper 35mm round stamping blank using a 1/8 hollow rivet.
4. Open a 4mm jump ring and connect this to the hole at the top of your copper stamping blank from the previous step. Close the jump ring.
5. Cut an 18 inch length of antique copper plated textured cable chain.
6. Thread one end of the cut chain through the jump ring attached to your pendant.
7. Open a 6mm antique copper plated jump ring and link this to one end of your chain. Close the jump ring.
8. Open a 4mm jump ring and link this to the other end of your chain. Also place onto the jump ring your small lobster clasp. Close the jump ring.
9. Enjoy!
