Instructions:

The finished necklace measures approximately 16 inches including the clasp. With the ingredients listed in the supplies, you can make a necklace up to 24.5 inches long.

1. Begin by cutting a 15.5" length of beading chain.
2. Onto one end of your chain, slide on a beading chain end cap/crimp. Using your chain nose pliers, depress the middle of the crimp to securely clamp it over the beading chain. Please watch the video [HERE](#). The video shows a larger style of crimp end, but the same principle applies.
3. Slide onto your chain (via the end without the crimp) your Beadelle pave beads in the following order: 10mm chocolate brown/lt. topaz crystal bead, 12mm gunmetal/crystal bead, 10mm rose gold/crystal bead, and 8mm gunmetal/crystal bead.
4. Secure a beading chain end cap/crimp to the remaining unfinished chain end.
5. Open a 4mm jump ring and link it to one of the end crimps as well as a 5mm closed jump ring. Close the jump ring.
6. On the other side of the necklace, open and link another 4mm jump ring and connect it to the crimp end and the loop at the base of the lobster clasp. Close the jump ring.
7. All done!

Variations

Choose from a variety of Beadelle Crystal pave beads for this design.

When substituting in items, pay attention to sizes and styles to make sure all your pieces will fit together.
