

Industrial Design Necklace

Project N784

Designer: Julie Bean

Looking like a piece of modern art, this necklace is clean and simple. The pop of color for both the concrete and the sodalite gemstone add an unexpected twist to this design.

SKU: SPCB-2021

Project uses 1 piece

Instructions

Please note you will also need a disposable mixing cup, some way of measuring tablespoons and teaspoons, tap water, and something such as a popsicle stick to stir your concrete.

1. Please watch the video: [How to Add Color Pigments to Concrete for Jewelry](#).
2. In the video you will learn how to mix your concrete, add pigment, and also how to make this pendant. Let fully cure once it has been made.
3. Open the clasp of your chain and slide on your pendant. Close the chain back up.
4. All done, enjoy!
