 Sticks, Flat with Rounded Edge 4.5 Inches, 10 Sticks

## Instructions

These instructions will make an 18 inch necklace. For a longer or shorter necklace, choose your desired chain. Note: for a longer necklace, you may need to buy more chain.

1. Begin by watching the video: How to Make a Connector Focal Necklace with Gita Settings.
2. Using what you have learned in the video, set your Swarovski Crystal ss39 crystal AB chaton into the centermost prong setting of your cross pendant and use a craft stick to gently press the prongs down onto the chaton as shown in the video.
3. Repeat the same process described in step 2 to set five dark red ss39 chatons into the remaining prong settings of your cross pendant.
4. To Hang your pendant: Use flush cutters to cut 17.5 inches of chain. Slide one end of the chain through the top loop of your pendant.
5. Use pliers to open a jump ring and slide on the end link of one side of your chain. Also slide on the loop of your clasp. Close the jump ring.
6. Open another jump ring and slide on the end link on the other side of your chain. Close the jump ring. Enjoy!
