

# Rainbow and Unicorn Necklace

## Project N830

*Julie Bean*

This cheerful necklace features a dazzling rainbow design created with Swarovski crystal bicones in the 7 traditional colors of the rainbow. Finishing off the design is a brilliant rivoli fancy stone and a sterling silver unicorn charm.

## Instructions

1. To begin this project, please watch the video: What are the Colors of the Rainbow in Swarovski Crystal. In this video you will see a close up detail of this necklace project which will help you during the construction of it.
2. Start by placing a small dab of glue into the rivoli setting and into your setting place the rivoli. Let dry.
3. Open and remove the jump ring that comes with your unicorn charm.
4. Take your premade necklace and fold in half to find the middle link. Open a 5mm jump ring and place onto it the rivoli in the setting and the unicorn charm (so that the unicorn sits on top of the rivoli) and connect this jump ring to the middle necklace link. Close the jump ring. This is the exact middle point of your necklace and you will be working outwards from here on both sides to create your rainbow.
5. You have 7 colors of Swarovski crystal bicones, you will be using 12 bicones of each color. Place one bicone onto an headpin and create a simple wire loop using your wire looping pliers. Trim off excess wire. Repeat this step with all 12 bicones of each color. You will end up with 84 little bicone danglers with loops.
6. To attach the bicones to the necklace, you will be opening and closing the simple wire loops and linking them one by one directly to the chain, every other link, starting right next to the rivoli pendant.
7. Starting with violet, attach 6 bicones on either side of the rivoli, making sure to attach one to every other link. Please see the project pictures and the video for reference images. After violet, attach 6 of each bicone to each side in the following color order: majestic blue, light turquoise, dark moss green, citrine, tangerine, and finally light siam.
8. After you have attached all the bicones, 42 to each side, your necklace is done. Have fun wearing it!
