

INSTRUCTIONS

This project takes place in two major parts: creating the leather cord and button bracelet, and then the beading around the bracelet. If you wanted to, you could always have a simple leather bracelet and skip the beading.

1. To make this project, please watch the video: [DIY Jewelry: How to Make a Leather Cord and Seed Bead Bracelet](#). This video will walk you through the process from start to finish including mentioning how long to cut your cord and your beading thread. Enjoy!
