

You have plenty of beads in the tube to make a much larger bracelet if needed!

1. To make this stretch bracelet, cut a length of stretch cord about 15 inches long. Place a bead stopper about 4 inches from the end. Add a twisted wire needle to the other end and string on your beads. For a 7.5" bracelet, string on 52 beads.
2. To learn how to complete your stretch bracelet, please watch the video: [How to Make a Stretch Cord Bracelet with Seed Beads](#). Just substitute in the bicones for the seed beads but all the other instructions will be the same. If you want, add a dab of glue to the knot.
3. Enjoy your beautiful new bracelet!
