

The only technique needed for this project is the opening and closing of jump rings.

1. Begin by **opening a jump ring** and sliding on your heart pendant. Close the jump ring.
2. Open a second jump ring and slide 8 seed beads onto it. Also slip on the jump ring/heart pendant combo. It can slide over the seed beads and you can position it so that there are 4 seed beads on either side of the jump ring connected to the heart pendant. Close the jump ring.
3. Open the loop at the base of your earring hook. Hold the dangle with seed beads/hearts that you just made so that there is a little gap at the top showing just the plain jump ring. It's at this point that you will slip on the loop at the base of your earring hook. Slip it on and close the loop.
4. Now make your second earring to match. All done!
