Majestically Jeweled Memory Wire Bracelet (PROJ-PD-B0011)   Designer: PRESTIGE Crystal Components
Skill Level: Beginner

Note: Do not pre-cut your memory wire.

1. Place onto a ball head pin 1 round bead. Create a simple wire loop after the bead. Trim excess wire. You have created one crystal dangle. Now repeat this step with all your other round beads of various colors.
2. Using a round nose plier, create a simple wire loop on one end of your memory wire. If you want, you can coil the loop to make a little decorative end with a small two or three loop coil.
3. String onto your memory wire 6 Majestic Green round beads. Next, slip on one of your crystal dangles from step 1. Now string on 6 more green round beads, followed by another dangle, etc. Do this until you have strung on all your beads and dangles.
4. When all your beads and dangles are on, cut your memory wire so that you have about a 3/4-inch tail (more if you want to make a coil again), then create a loop using your pliers to finish your memory wire bracelet.
5. Place a small dab of E6000 glue into your bezel setting. Set your flatback into the glue and let dry. Repeat with your other bezel and flatback. Let them both fully dry.
6. When the bezels are dry connect each one of them to each of the loops on the bracelet (one bezel for each loop) via jump rings.
7. Have fun wearing this sparkling bracelet!

WHAT YOU'LL NEED: (scroll down for purchase options)

- **WXM-020 - Memory Wire, Bracelet Round Size Medium 2.25 Inch Diameter, 12 Loops, Silver Plated**
  Project uses 3 loops. You will need 1 package(s).
