

For this project, you will just be opening and closing jump rings!

1. We are going to be making this earring from the top down. Slip a sew-on stone onto your earring hook. To do this, open the loop with the ball so that you have a slight gap and then put your sew-on stone onto the part of the hook that goes into your ear, side it down and around the curve of the loop. Close the loop back up once the crystal is resting in the base of the loop.
2. Now link 4 rivoli sew-on stones together via their holes **using jump rings**, making sure to also attach them to the 5th stone that is already attached to your earring hook. You are making a "chain" of these pretty crystals. Please see photo for reference.
3. On the bottom sew-on stone (that is already attached to the others) open a jump ring and link to it the briolette pendant. Close the jump ring.
