

Please note that your beads should just slide onto your earring hoop but if they have a hard time going over the little end that is bent upwards, you can carefully bend it to be at less of an angle using chain nose pliers and then bend it back in place. First try to slide your beads on without bending the wire.

1. Slide your beads onto your wire in the following order: purple, blue, green, yellow, orange, and red.
2. Repeat with your other hoop. Enjoy!

WHAT YOU'LL NEED: (scroll down for purchase options)
