3. Center the image on the flat side of the glass cabochon and press it down, taking care to smooth out any bubbles. Set aside to dry.
4. Once it has dried, paint another thin layer of Nunn Glue on the back of the image. Allow to dry.
5. Dab a small amount of E6000 on the back of the cabochon and center it on the flat part of the ring. Allow a full twenty-four hours to dry.
