SKU: FRG-0823

Project uses 1 piece

Crystal Clay 2-Part Epoxy Clay Kit 'Ruby' 25 Grams

SKU: TRC-245

Project uses 1 piece

Instructions

If you have not worked with Crystal Clay before, you may want to watch our video before you begin: How to Use Crystal Clay. I recommend wearing gloves for the first part of this project.

1. Take equal part of both Part A and Part B. Form a ball that is about 22mm (Containing both parts) to fit on the ring finding.
2. Mix the two parts together in your hands until there is one uniform color with no marbling.
3. Press your mixed clay into the bezel setting on your ring.
4. Gently try to smooth out any fingerprints by running the tip of your finger lightly over the surface.

5. Take the beeswax applicator that comes with your crystal clay kit. Gently press the chatons into the clay. There is no set pattern in this ring. Simply place the chatons one at a time in your desired position.

6. Let dry in an upright position for 24 hours.
