[XTL-4004] Beadsmith Magical Rhinestone Pick Up Tool With Cleaning Kit - Great For Placing Flatback Rhinestones

Instructions

1. Begin by watching the video: How to Use Crystal Clay with Swarovski Crystal Chatons. From what you learned in the video, put on your gloves and mix up a gum ball sized amount of white Crystal Clay. Mix in a small dash of Sparkle Dust, just enough to give it a shimmer.
2. Place your mixed clay into the bezel setting of your ring finding. Gently mold it into the setting, making sure it is evenly domed.

3. Using the beeswax applicator or the magic pick, place the six larger chatons in the striped pattern alternating colors (please see photo).
4. Once your six larger chatons are placed you will begin placing the two smaller sizes of crystal chatons all around the ring. You may create a pattern or scatter them where you feel they fit best. The idea is to go for maximum sparkle. Have fun with it.
5. Once all your chatons are placed, set the ring to dry in an upright position.
6. Your ring will be fully cured and ready to wear in 24 hours.
