### Instructions

1. Begin by watching our video, How to Use Crystal Clay with Swarovski Chatons. From what you have seen in the video mix equal parts A and B of your clay about the size of a pea. Mix until there are no more striations.
2. Place into the bezel of the ring. Smooth out the top and the bottom, making sure that the clay gets into the corners of the square.
3. Using the beeswax applicator, gently press the rox glitter into the top of the crystal clay. Use as much as you like to get your desired effect.
4. Allow the clay to dry at least 24 hours before wearing.
