

## Eden Ring

### Project R3014

Designer: Karlin Jones

By combining black Crystal Clay, SWAROVSKI ELEMENTS chatons in Crystal and an antiqued silver plated flower stamping, you can create a ring that is both unexpected and feminine.

### What You'll Need

SKU: SWCH-51400

Project uses 6 pieces

Crystal Clay 2-Part Epoxy Clay Kit 'Black' 25 Grams

SKU: TRC-230

Project uses 1 piece

G S Hypo Cement Precise Applicator Essential!

SKU: XTL-1001

Project uses 1 piece

### Instructions

1. Before you begin, please watch the video on How To Use Crystal Clay.
2. Following what you learned in the video, put on your gloves and make a small gum ball sized amount of black Crystal Clay. Press it into the center of your ring bezel, and gently mold it into the setting making sure it flatly spreads out to all the sides.
3. Once your clay is smooth, carefully place your antiqued silver stamping (making sure the glue-in recesses are on top) into the ring bezel. The stamping should fit perfectly into the bezel at a diagonal.
4. Next, add in a tiny dab of Hypo Cement glue into each recess on the stamping.
5. Using the beeswax tip applicator that comes in your Crystal Clay kit, gently pick up 6 SWAROVSKI ELEMENTS chatons and place them one by one onto the glue into the glue-in recesses of your flower stamping.

6. Allow your ring to cure overnight.

7. Enjoy!
