

Mint and Ice Ring

Project R618
Designer: Julie Bean

Both classic and fresh, this sparkling ring is a go-with-everything accessory. The mint colored Crystal Clay nicely contrasts with the copper toned brass ring and the Swarovski Crystal chatons sparkle brightly.

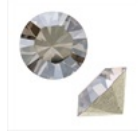

What You'll Need

Antiqued Copper Tone Brass Round Bezel Adjustable Ring 16mm (1)

Project uses 11 pieces

Crystal Clay 2-Part Epoxy Clay Kit 'Sage' 25 Grams

SKU: TRC-247
Project uses 1 piece

Crystal Clay 2-Part Epoxy Clay Kit 'White' 25 Grams

SKU: TRC-251
Project uses 1 piece

Instructions:

1. To begin this project, please watch the video: How to Create Color Variations with Crystal Clay
2. Following what you learned in the video, mix equal parts of sage and white Crystal Clay to end up with the mint color featured in this project. You only need a small amount of Crystal Clay for this project, including the hardener and two colors you want to end up with an amount roughly the size of a small gum ball. Look at the photo and your bezel ring to get a better idea of how much you will need.
3. Press your mixed clay into the bezel setting on your ring.
4. Gently try to smooth out any fingerprints by running the tip of your finger lightly over the surface.
5. Take one of the beeswax applicators that come with the Crystal Clay kits and place 11 Swarovski Crystal Chatons in silver shade into your clay. Press them into the clay so that their edge is just below the clay surface.
6. Let dry in an upright position for 24 hours

Variations

Choose from a variety of Crystal Clay colors to make this ring!

When substituting in items, pay attention to sizes and styles to make sure all your pieces will fit together.
