Instructions:

Note: for this project you will also need a turquoise colored sharpie permanent marker.

1. Begin by watching two videos: How to Color Lillypilly Aluminum Blanks and How to Dap and Punch Lilly Pilly Aluminum Blanks.
2. Based on what you saw in the video, color both of your Lillypilly blanks (pattern side) with a turquoise colored sharpie marker. Use a polishing pad to remove the excess ink.
3. Dap the Batik patterned blank.
4. Place a generous amount of E6000 glue into the underside dapped well of the batik blank. Flip over and center on the pattern side of the ornamental design blank. Press into place. If any glue squishes out, use a toothpick or you nail to remove before it dries. Let fully dry.
5. Place a dab of E6000 onto the glue-on tab of your ring finding. Center on the solid color backside of your ornamental design blank and press into place. Let dry.
6. All done! Enjoy your fun new ring!
