Recommended Tools:

[XTL-5600] Xuron Sharp Flush Cutter Pliers - Wire/Soft Flex, [XTL-5608] Xuron 4 In 1 Crimping Pliers - Works On 1, 2 And 3mm Crimps!, [XTL-5511] Beadsmith Jeweller's Micro Pliers Chain Nose Flat Nose, [XTL-3000] Bead Stopper- Stop Beads Sliding Off Stringing Material

Instructions

1. For the earrings, take one head pin and string on one round 8mm round bead. Make a simple wire loop.
2. Take one eye pin and string on one 6mm round bead. Make a simple wire loop.
3. Take one eye pin and string on one 4mm round bead. Make a simple wire loop.
4. Now open the loop of the 8mm bead, same as you would a jump ring, and attach it to the loop of the 6mm bead. Move to the other side of the 6mm bead and attach the loop of the 4mm bead. To the other side of the 4mm bead, attach the earring hook.
5. To make the second earring follow the steps above.
6. For the necklace begin by cutting three strands of beading wire, 24 inches long each.
7. Take one strand and string on one crimp tube thread the wire up through one hammered triangle ring and back down through the crimp tube. Pull snug and leave a tail of about 1 inch. Crimp the crimp tube. Add a crimp cover.
8. Repeat the above step for the other two lengths of beading wire.
9. To the first strand, string on the beads in this order: one 4mm bead, followed by one 2mm bead. Repeat 83 times, and finish with one 4mm bead. Add a bead stopper to the end of this wire.
10. To the second strand, string on the beads in this order: one 6mm bead, followed by one 2mm bead. Repeat 71 times, and finish with one 6mm bead. Add a bead stopper to the end of this wire.
11. To the third strand, string on the beads in this order: one 8mm bead, followed by one 2mm bead. Repeat 48 times, and finish with one 8mm bead. Add a bead stopper to the end of this wire.
12. Next braid the three strands gently to intertwine them together.
13. When you come to the end of the braid, take one strand and remove the bead stopper. String on one crimp tube and thread the wire up through a second hammered triangle ring and back down through the crimp tube. Pull snug and crimp the crimp tube. Add a crimp cover. Trim the wire. You will repeat this step for the other two strands.

14. Open one jump ring and attach it to one hammered triangle and to one lobster clasp. Close the jump ring. All done.
