BeadSmith Casual Comfort, Chain Nose Pliers with PVC Handle, 1 Piece, [XTL-5608] Xuron 4

In 1 Crimping Pliers - Works On 1, 2 And 3mm Crimps!

Instructions

This necklace measures approximately 17 inches. To modify the length, simply adjust the length of chain on both sides respectively.

1. Cut off a length of cup chain that is 7 rhinestones long.
2. Please watch our video: How to Use Cup Chain Ends. From what you learned in this video, attach one cup chain setting to one end of the length.
3. Open the loop of the earring hook, same as you would a jump ring, and attach it to the loop of the cup chain end. Close the loop. Repeat the above process to create the second earring.
4. For the necklace, you will need to cut lengths of cup in the following order: two lengths of 3 rhinestones, two lengths of 4 rhinestones, two lengths of 5 rhinestones, two lengths of 6 rhinestones, and one length of 7 rhinestones.
5. Attach cup chain ends to one end of each length of cup chain you just cut.
6. Cut a length of bar chain 16 3/4" long (44 bars).
7. Open one jump ring and attach it to the length of cup chain that is 7 rhinestones. Attach this jump ring to the small just ring that is in-between the 22nd and 23 bar of the bar chain. Close the jump ring.
8. Now move to the left and attach a length of 6 rhinestones to the jump ring between the next two bars in the same manner. Continue for the length of 5, 4, and 3 rhinestones.
9. Move to the other side of the length of 7 rhinestones and repeat the above step to add them to the other side. Please see photo for reference.
